

ANIMAL CARE RECOMMENDED BY VETS AND TRADE MAGAZINES

Mein Pferd (issue 10/2015): Ballistol Animal – editor's tip.

"The oil cares for sensitive chafing areas – in the practical test, a horse with eczema was treated successfully with it. It acted as wound treatment and can be used to care for the tail, coat and hooves."

St. Georg (issue 01/2015): Ballistol Animal was awarded the seal of quality. Conclusion: "... Ballistol oil is a classic and an all-rounder. The oil is recommended for itching, greasing hooves and for much, much more. We also used it to treat the beginnings of malanders - with success. ...".

St. Georg (issue 06/2018 – Wellness for your horse): Conclusion: "A very high-yield product which is suitable for almost all horse aches and pains and lasts for a long time. Especially among horses with sweet itch, it can be rubbed onto all nuzzle places without difficulty and significantly reduces itching"

St. Georg (issue 06/2016): Ballistol Horse Shampoo was awarded the seal of quality. Conclusion: "... The shampoo is not just especially gentle on the skin, but it is also extremely high-yield. Thanks to the spray nozzle, you can easily apply shampoo to the neck or legs. ..."

St. Georg (issue 07/2013): Stichfrei Animal was awarded the seal of quality. Conclusion: "No annoying insects while riding or in the field: 'Stichfrei animal insect spray' from Ballistol promises protection against mosquitoes, horseflies and ticks. It worked well in the test. However, we applied the spray once more after a few hours. A positive: the relatively discreet smell of the clear liquid."

Cavallo (issue 06/2016): Ballistol Horse Shampoo was awarded the innovation prize. "The shampoo can be applied especially easily and removes stubborn marks, even on greys."

Veterinarian Dr. Klaus Derkmann: "Ballistol Animal is an animal care remedy with various options for use which I am happy to recommend. I was not aware of any adverse side effects during my activity in the practice"

BALLISTOL UNIVERSAL OIL TRIED AND TESTED AND UNRIVALED

Area of application: Ideal for leather care for animal accessories. Bridles, leashes, saddles and other leather equipment are kept soft, supple and protected from drying out. Also suitable for machines (e.g. shaver head), tools, coaches, sledges, natural wood, metal, aluminium, plastic, rubber and also for skin and coats.

Advantages:

- Skin-friendly, nutritionally and environmentally friendly
- Biodegradable
- Cares, protects, lubricates, preserves, cleans, loosens dirt and much more
- No other product has a comparably vast number of application options
- Completely harmless if accidentally ingested or with skin contact
- Dermatologically tested on humans with "Very Good" (Source: www.ballistol.de)

Note: You can find more tips and information in the Ballistol multi-purpose oil flyer or the Story.

STING-FREE MOSQUITO REPELLENT

Area of application: Protects against gnats, ticks, and horseflies as well as tiger mosquitoes, mosquitoes, mopane flies, tsetse flies, sand flies and sand fleas.

Advantages:

- Effective for up to 8 hours (for ticks up to 4 hours)
- Highly effective protection due to combination of 20% icaridine and natural essential oils
- Pleasant fragrance and cooling effect
- Dermatologically and allergologically tested and rated as "Very Good" (Source: www.ballistol.de)
- Suitable for long distance travel and the tropics
- Contains essential oils with skincare properties

Note: You can find more information in our Sting-Free flyer. Not suitable for children under 2 years. Avoid contact with eyes or mucous membranes. Do not apply onto open wounds. Do not spray on plastic materials. Alcohol may make colours fade. May cause allergic reactions (contains D-limonene, linalool, bergamot and grapefruit oil). Use Sting-Free carefully. Always read the label and product information before use.
Reg.no.: N-107649

ANIMAL CARE FOR PROTECTION AND CARE

BALLISTOL ANIMAL ANIMAL CARE OIL

Area of application: Thanks to its composition and gentle manufacture, Ballistol animal is ideally suited for wound treatment and as an all-purpose care oil. Natural and gentle care for pets.

Skin and paw care: Repeatedly rub or massage into sensitive areas. Promotes hair growth on bald spots due to chafing or lying down. Prevents rough, cracked areas on paws (e.g. caused by road salt).

Ear care: For cleaning the outer ear.

Tail, coat and hoof care: Spread a little oil on a brush and brush the tail or mane well. Encrustations are removed gently. It makes the hair silky, shiny and loose. Dab hooves after cleaning.

Leg and foot care: Apply to the feet with a brush for care and preventive protection. Also ideal for scaly legs: firstly, soak encrusted scales in warm water, then brush the feet with the oil. Repeat the process after a few days. Tip: Adding a few drops of Ballistol Animal to the water helps soften scales. Also ideal for the claws of birds of prey.

Follow-up treatment of wounds: Applying Ballistol Animal once the acute wound has healed will keep the skin protected, soft and supple. This prevents scars from forming, promotes hair growth and relieves itching.

Saddle sores: Proceed in the same way as for the wound treatment. The saddle sores will be gone the next day, at best. Note: Please contact your vet if the skin is more seriously injured.

Summer eczema: Proceed in the same way as for the wound treatment.

Relieving itching: Massage in several times a day to soothe skin irritation, insect bites or chafing. The itching stops and hair growth is promoted.

Advantages:

- A remedy to care for skin, coat, ears, paws and much more
- Alleviates itching, loosens incrustations, supports the healing of wounds
- Also ideal for treating tick bites and wounds
- Consists of proven natural, plant-based active substances and medically pure white oil
- Tried and tested over 65 years and very compatible
- Completely harmless when licking coat or accidental ingestion
- Recommended by vets
- Free from colourings and preservatives
- Free from animal oils
- Not covered by the general doping guidelines

Note: Avoid eye contact as this can cause a slight burning sensation. Always follow the instructions of the package insert before use.

HORSE SHAMPOO CARE FOR HORSES

Area of application: Gently cleans the skin and coat. Manes and tails also become soft and easy to comb. The sensitive range is suitable for sensitive horses (also with skin and hair issues), greys and foals in particular thanks to its special composition.

Advantages:

- Produced with valuable, natural ingredients (the sensitive range contains mild surfactants)
- Particularly mild, moisturising cleaning
- Gives coat, mane and tail a silky shine
- Skin-pH-neutral horse shampoos
- Very good washing effect and rinses out well
- High-yielding and biodegradable
- Dermatologically tested on humans with “Very Good” (Source: www.ballistol.de)
- Suitable for all coat colours
- The sensitive range contains no added fragrances, colourings and preservatives
- Not covered by the general doping guidelines
- Available in the sorts: Nettle-Camomile and Sensitive

STING-FREE ANIMAL MOSQUITO PROTECTION

Area of application: Protects against ticks (*Ixodes ricinus*), mosquitoes (*Simulium* spp.) and even horse-flies (*Tabanus* spp., *Haematopota* spp.).

Advantages:

- Effective for up to 7 hours
- Contains proven repellent IR3535 (20 %)
- Pleasant scent
- Dermatologically tested on humans as “Very Good” (Source: www.ballistol.de)

dermatest-guarantee.com

dermatest-guarantee.com

- Protects and cares for the skin of the animal
- Preventative protection against sweet itch
- Not covered by the general doping guidelines
- Recommended by vets

Note: You can find more information in our Stichfrei flyer. Avoid contact with eyes or mucous membranes. Do not apply on open wounds. Use Stichfrei animal with care. Always read the label and product information before use. Approval No: DE-0013962-19, AT-0021243-0000
