RIM CLEANER

Area of application: Removes stubborn dirt such as brake dust and oil and rubber residue, automatically and highly effectively. Also suitable for TPMS (tyre pressure monitoring systems).

Cleaning status is indicated by colour change

Advantages:

- Extremely powerful gel cleaner
- Suitable for all rims (steel, mirror-polished aluminium, multi-part, matt).
- Self-acting with impact indicator
- Tested material compatibility
- Cleaner turns to foam when sprayed
- Removes light rust films
- Neutral towards rubber and coated surfaces
- Odour-reduced
- Acid-free
- Biodegradable

Note: Rinse away thoroughly, do not allow to dry and do not use in direct sunlight or on heated surfaces. Keep Ballistol rim cleaner protected from frost. Check material compatibility on an inconspicuous area before use.

UNIVERSAL & PLASTIC CLEANER

Area of application: To clean surfaces in the car, home and commercial applications (e.g. plastic parts, blinds, seat upholstery, textiles, imitation leather and smooth leather, furniture surfaces, garden furniture, tarpaulins). Dissolves dirt such as soot, grease, oil, nicotine and insect residues.

Advantages:

- Strong cleaning power
- Removes 99.9% of bacteria
- For all surfaces
- Fresh scent
- Short application time
- Treated surfaces repel dust and dirt and are antistatic
- Very economical
- Material-friendly
- Free from silicone and solvents

Removes
99,9 %
of bacteria

GLASS CLEANER

Area of application: Suitable for glass and mirrors and also hard, smooth surfaces in the car and household. Removes fingerprints, grease, oil, nicotine, soot, dust, electronic cigarette vapour and even insect residue effortlessly.

Advantages:

- Intensive cleaning formula
- Streak-free shine, can be used quickly on warm surfaces
- Protective film delays a quick resoiling

BRAKE AND PARTS CLEANER

Area of application: For cleaning and degreasing brakes, brake discs and industrial parts.

Advantages:

- Effectively removes oils, fat, dirt and even dried-in, resinified oils and brake dust
- Flushes off without residues, pleasant smell
- Eliminates organic residues smoothly using the power of citrus extracts
- Good material compatibility, also for lacquer, varnish and plastics
- Spraystream – extra strong
- Does not resinify, free from acetone, silicone, N-hexane, PTFE and acids

DRY CLEANER & DETAILER

Area of application: The quick cleaning and paint care for all types of vehicles. Dissolves light and moderate dirt such as splashes of dirt, pollen, lime spots, rainwater stains and fingerprints. Can be used on painted, chrome and plastic surfaces.

Advantages:

- Delicate express care
- Cleaning without water
- Brilliant lacquer finish with roll-off effect
- Creates an extremely deep shine
- Contains high quality polymers and waxes
- Refreshes existing wax treatment
- Offers protection against weathering and environmental influences
- Also suitable for film applications (partial and complete adhesion)

Note: Do not use in the blazing sun or on heated surfaces. Do not allow to dry. Protect contents against frost.

RESIN REMOVER

Area of application: This is the ideal aid for tools coated in resin (e.g. saw blades, planes, milling heads) for wood processing machinery and in industrial maintenance.

Advantages:

- Simple application
- Cleans without leaving residue
- Extremely high-yield
- Spray - allow to work - wipe off - done
- Biodegradable
- Suitable for alkali-resistant surfaces
- Free from animal oils

Temperature range

-5 °C to approx. +40 °C

Note: Not suitable for varnished surfaces or light and non-ferrous metals. After cleaning, we recommend preserving with Ballistol Universal Oil.

UNIVERSAL WIPE DRY

Area of application:

Non-woven wipes for wet and dry use. Wipes can be soaked with Ballistol products in the dispenser box. Suitable for polishing and for surface or hand cleaning in all areas.

Advantages:

- Resistant and plain, dry wipes
- Very absorbent, very soft and low-linting
- Solvent-resistant, tear-resistant
- Antistatic, puncture resistant
- Non-drip cloths
- Silicone, PTFE and acid-free
- Reusable dispenser box
- Refill pack available

COMPRESSED GAS CLEANER

Area of application: Removes dust, the finest fuzz, and smaller particles from hard to reach places without contact. Field tested on cameras, lenses and objective lenses, microscopes and other optical devices. Also suitable for use on computers, keyboards, printers, USB ports, hifi/stereo systems, record players, razors and long hair trimmers. It can also be used for electrical and electronic switch elements and modules (e.g. light switches, plug sockets, circuit boards, smoke detectors).

Advantages:

- High yielding thanks to the special gas within it
- Gentle with sensitive objects (e.g. films, optics, high-gloss polished metals)
- Sprayable gas volume of approx. 80 litres (compared to compressed air: 5 litres)
- Leaves no residue behind
- With spray nozzle extension

Note: Not suitable for camera reflex mirrors.

FIREPLACE & STOVE CLEANER

Area of application: : Suitable for cleaning fireplaces, ovens and baking trays, fondues, woks, pots, pans, deep-fat fryers, ceramic stoves, cooktops, smoke ovens, microwave ovens and electric ovens.

Advantages:

- Removes stubborn resin formations, smoke tar, charred and crusted residues, soot, oil, nicotine and wax
- Automatic, residue-free cleaning in seconds
- Extremely high-yield
- Easy to use
- Prevents stubborn stains
- Biodegradable
- Free from animal oils

Temperature range:

-5 °C to approx. +40 °C

Note: Not suitable for varnished surfaces.

BARBECUE CLEANER

Area of application: For the residue-free removal of burnt-on residues, fresh or dried-on grease and marinade residues on grills and grill grates. Also suitable for gas nozzles, stainless-steel covers, enamel barbecue grills and plastic barbecue parts.

Before cleaning

After cleaning

Advantages:

- Powerful active foam that clings well to surfaces
- Strong grease-removal power
- Very economical
- Spray on - let it work - wipe off - finished
- Developed with BBQ pros
- Readily biodegradable

Note: Please do not use on light or non-ferrous metals or painted or non-stick surfaces.

Always the right solution – with the BALLISTOL cleaner series
